Contact us for a free Estimate and Consultation. Cutting Edge Curb has design software that can help you decide exactly what you want by taking a photo of your residence or business and adding islands or placing curb around your existing islands so you can get an idea of how much our curbing can benefit you. These are supplied with every estimate at no cost.

Decorative concrete curbing from Cutting Edge Curb is a custom fit seamless concrete border for your landscaping, trees and flowerbeds. Our Curb is a continuous, permanent and effective grass and weed barrier. Cutting Edge installs your curbing contouring to hillsides, curving gracefully around your landscaping and around trees or any other obstacles in your yard. Perfect for flat yards or terrace or hilly yards. Please contact us to get your project started or just to get an idea of the cost and let us help you make your yard yours. Check out our website for more great examples of our work or some more info on our products.
